Table of Contents: Volume 4 (1989)

Number 1

Editorial ..... *J. Carbonell* 5
Learning Conjunctive Concepts in Structural Domains ..... *D. Haussler* 7
Semi-Supervised Learning ..... *R. Board and L. Pitt* 41
On Learning Sets and Functions ..... *B.K. Nataranjan* 67
Efficient Specialization of Relational Concepts ..... *K. VanLehn* 99
News and Notes ..... *T.G. Dietterich* 107

Number 2

Editorial ..... *J. Carbonell* 113
LT Revisited: Explanation-Based Learning and the Logic of Principia Mathematica ..... *P. O'Rourke* 117
Incremental Induction of Decision Trees ..... *P.E. Utgoff* 161
A Study of Explanation-Based Methods for Inductive Learning ..... *N.S. Flann and T.G. Dietterich* 187
An Empirical Comparison of Pruning Methods for Decision Tree Induction ..... *J. Mingers* 227

Numbers 3 and 4 (Special Issue on Knowledge Acquisition)

Introduction: A Sampler in Knowledge Acquisition for the Machine Learning Community ..... *S. Marcus* 247
Can Machine Learning Offer Anything to Expert Systems? .. *B.G. Buchanan* 251
When Will Machines Learn? ..... *D.B. Lenat* 255
Supporting Start-to-Finish Development of Knowledge Bases .... *R. Bareiss, B.W. Porter and K.S. Murray* 259
The Knowledge Level Reinterpreted: Modeling How Systems Interact ..... *W.J. Clancey* 285
Automated Knowledge Acquisition for Strategic Knowledge .... *T.R. Gruber* 293
The World Would be a Better Place if Non-Programmers Could Program ..... *J. McDermott* 337
Task-Structures, Knowledge Acquisition and Learning ... *B. Chandrasekaran* 339
Automated Support for Building and Extending Expert Models .. *M.A. Musen* 347
Knowledge Acquisition for Knowledge-Based Systems: Notes on the State-of-the-Art ..... *J.H. Boose and B.R. Gaines* 377
